Resolutions

- Improvisations of teaching learning process: Smart class rooms need to be developed to enhance the quality of teaching and learning in the college. Room nos. 41 & 42 (Physics class rooms) at the first floor are required to be developed as smart class rooms in the first phase for the benefit of the students. In the second phase room nos. 16 & 14 at the ground floor are to be developed as smart class rooms at a later date. More class rooms need to be developed as smart classes on the basis of requirement and availability of the fund.
- Shifting of Day care centre: From safety point of view, Day-care centre needs to be shifted from Home Science building to the ----- as the Home Science building is very old and requires immediate repairing.
- Planning of Waste Management System: Too much waste is generated in the college campus because of presence of 4 hostels, so private agencies are required to be hired to help the college to establish waste management system and later on a full-fledged waste management plant can be set up to care of this problem.
- Sick room is required to be renovated to make it more hygienic and congenial for the students
- Development of Plant Nursery in the campus: With the help of the alumni of this college, a nursery is to be developed so that the campus would get enriched with greenery and various ornamental herbs, shrubs and medicinal plants

Any other issues

- Each department has to develop its activity calendar from July 2014 Feb 2015
- CPE – students' research work to be discussed among students and topics to be finalized within a week and it should be acknowledged by the concerned.
- NSS and NCC- Co-coordinators to decide the details of awareness programs to be conducted from July 2014, Feb 2015
