Dear Smt. Sharma

CII Innovation Club: Magadh Mahila College, Patna

I want to express my sincere appreciation for your unconditional support in establishing **CII Innovation Club** in your esteemed Institution. The mission of Innovation Club is to promote innovation, to broaden knowledge of innovation by setting up a network of innovation clubs; thus, paving the way for seamless open communication within innovators.

With a vision to release and manage creativity within academic community by creating a family of innovators and stimulating innovation culture, thereby making India an - "Innovation Nation", the club will serve as a communication and networking platform for the academic community (faculty and students) and industry professionals when so required.

Innovation Club will be a valuable resource for keeping abreast of the best writing and thinking on innovation, creativity, and related fields and practices in one place. It will create a supportive environment for networking, innovation guidance and the possibility of new ideas or partnerships to develop.

Looking forward for a strong and active association which will develop a bigger reservoir of innovative workforce for the knowledge economy industry.

Kind Regards,

Yours sincerely

S. Shashi Sharma
